How does EYE work?

EYE (European Youth Exchange Experience) is an **Erasmus+** project built around one big question: *how can young people become real actors in Europe's environmental transition?*

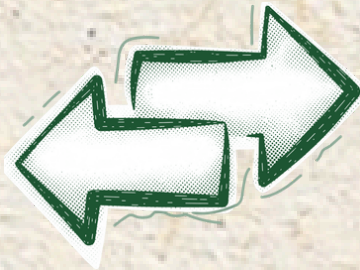

EYE
Green Deal Challenges
The European Youth
Exchanges Experience

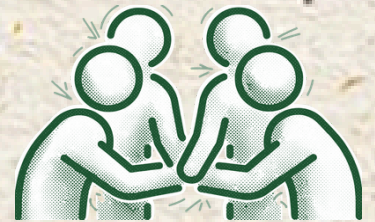

In 2 years

8 countries

8 exchanges

**200 young
people**

Each summer, **100 young people** participate in 4 youth exchanges — all happening at the same time, in parallel, across the continent.

Know →

Understand → Act

EYE is built on one clear logic: before acting, you need to understand. Short videos and interactive infographics cover key sustainability topics — transport, food, biodiversity, fast fashion, waste. *Once you've got the tools, the action begins.*

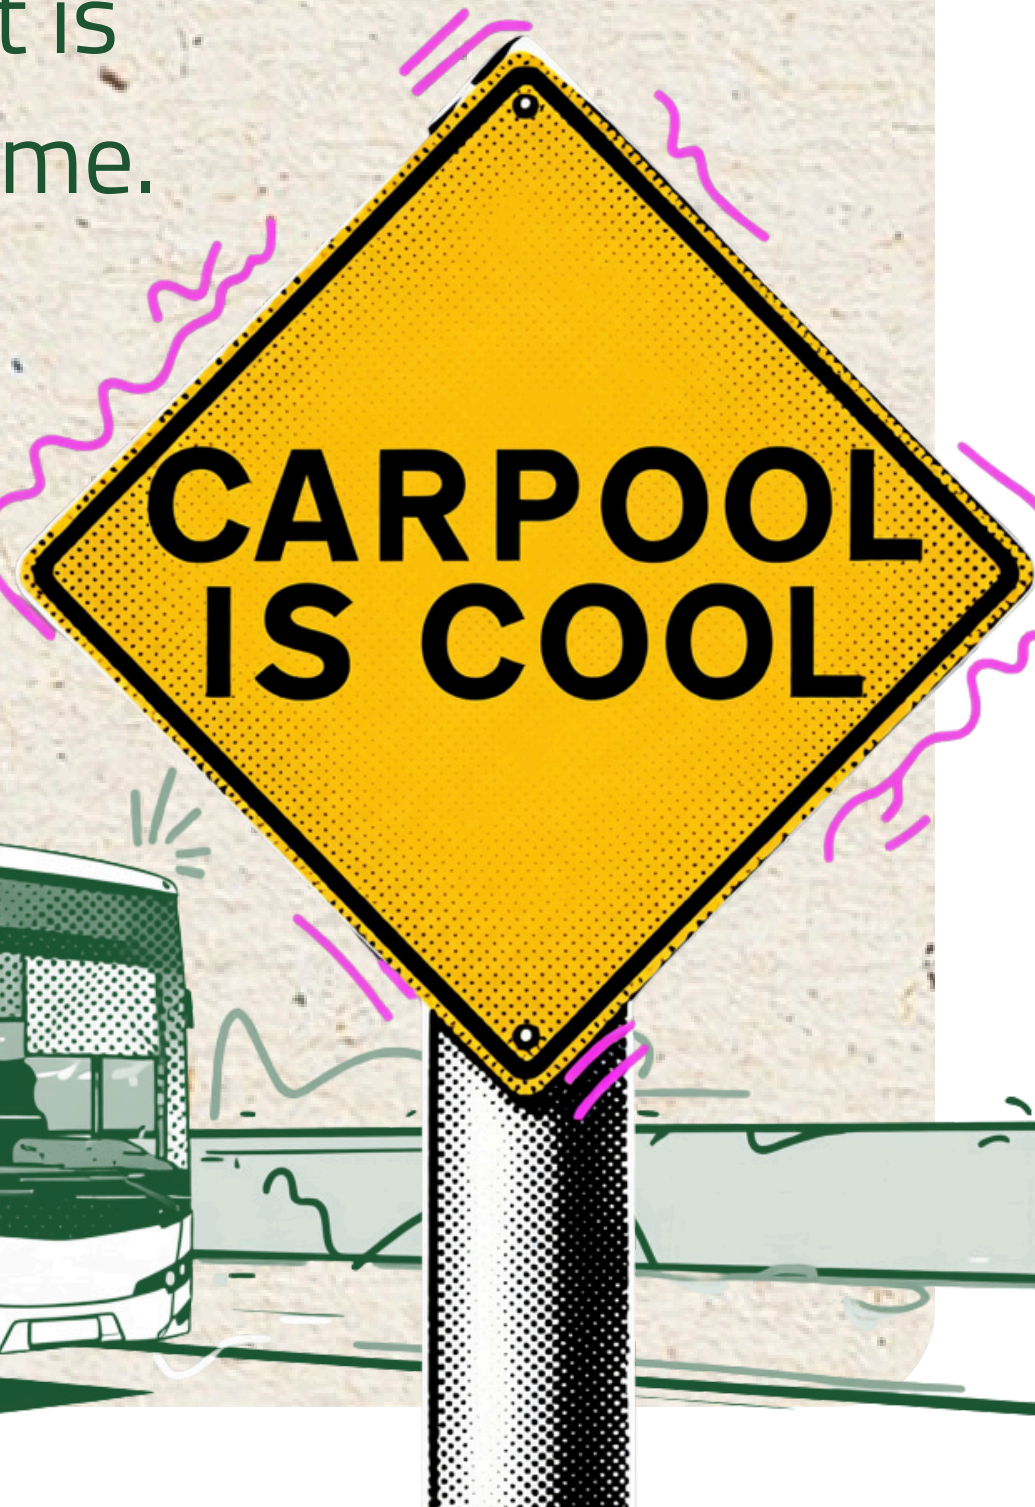

The Mega Game: Green Deal Challenge

During the exchanges, everything is a challenge. **Missions, quizzes, team competitions** — all built around the **Green Deal**. Your group competes in real time against groups from other countries doing similar activities simultaneously, **using a web-app created for the project!**

Green Travel: the journey is part of the game

Train, bus, carpool — getting there by eco-friendly transport is already part of the game.

*The adventure starts
before you even
arrive.*

Summer 2026

1st edition from July
23rd to 30th 2026!

Stay tuned!
